

ELECTRICAL INSTRUMENTATION TECHNICIAN

Queensland Nitrates Pty Ltd (QNP) operates a state of the art chemical processing plant in Central Queensland. QNP is seeking an E/I Technician who wishes to develop their career in a highly motivated team environment.

As a member of a self managed reliability team you will be responsible for ensuring process and plant availability. This specifically involves electrical, instrumentation, high voltage, maintenance and calibration of a wide range of process measurement and control equipment including gas analysers and control valves. Majority of work will involve process control instrumentation.

Ideally you will possess a dual trade in Electrical/Instrumentation and hold a Queensland electrical licence as electrical fitter/mechanic and a current "C" class driver's licence. PLC and/or DCS, continuous process plant and instrumentation experience will be highly regarded. Persons qualified as electrical fitter/mechanic who have knowledge and are experienced in instrumentation are also encouraged to apply.

QNP offers numerous training courses such as, working in hazardous areas; PLC, DCS/ESD, Gas fitter and instrumentation training. Employees work in a challenging and rewarding environment. The work roster is 36 hours per week with a 9 day fortnight which encourages a balanced lifestyle between work and family.

QNP offers an attractive salary package, relocation assistance and generous accommodation assistance approximately one hour from the coast.

Applications may be submitted via the website <http://jobsearch.downingteal.com> by entering 107626.
